Participants about Erasmus+ experience

[...]I believe that my level of Arabic has greatly benefited from this experience[...]. (student)

I fully recommend the experience to future students. Erasmus is the best way to immerse yourself in the local culture, meet new people and grow. (student)

During my Mobility in Rome Italy , I learned different things, as the new way of studies in Europe which gave me more knowledge and experience [...] it was one of the most special experience and opportunity that I had. (student)

I suggest to refer and consider the Erasmus Teaching Mobility to improve academic partnership and evaluate the level of international visibility of the institutions involved in the project. (staff)
